Hi Van Tien Nguyen,

Thank you for your application to the Qiskit advocate program. **We have reviewed your eligibility and are excited to share that you have been accepted into the program. Congratulations!**

Becoming a Qiskit advocate is an amazing accomplishment and great step forward in your quantum computing journey. We're excited to embark on this journey with you in the new Qiskit advocate program and see what we create together.

In this email, you will find your unique Advocate Number and a program guide with all the information you need to get going in the Qiskit advocate program.

Your Advocate Number: *****

You will need this number for critical aspects of the program, such as claiming and checking your points. Keep your Advocate Number private and only share it with us when requested.

To get you started for success in the Qiskit advocate program, we suggest you first complete these tasks:

- Download and read the attached Qiskit advocate program guide.
- Enter your advocate number in the program guide for safekeeping.
- If you have an account on Discord and have submitted your Discord username during the application process, join the [Qiskit advocates hub on Discord](#).
- Accept the invitation to join the Qiskit advocate library on GitHub that will arrive within 1-2 business days. You will have 7 days to accept this invitation, so we encourage you to do so as soon as possible. If your invitation expires

or you do not receive an invitation within 2 business days, please ping us in the [#gap-support](#) channel on Discord.

Please complete the rest of the suggested onboarding tasks on page 14 of the program guide, at your own pace.

Please ensure you familiarize yourself with the program using the attached program guide and other provided resources, complete the recommended onboarding actions, and stay tuned for more information on upcoming events, seminars, and activities. We look forward to seeing you around!

Kind regards,

The Qiskit advocate team at IBM Quantum
